

Alumni Email 2 [2025/2026]

Hi everyone,

In this email:

- Save the date: **OUTriC 25th Anniversary: Saturday, 16 May 2026**
- Michaelmas 2025 updates
- Sponsorship perks available to alumni
- How to help us grow the alumni mailing list

Thank you for the amazing response to our last email. We now have over 120 alumni on this list!

25th Anniversary: Save the Date

2026 marks OUTriC's 25th anniversary! Founded in the 2000/01 season, with our first Varsity in 2003, the club has grown into a vibrant community of athletes and friends. We're planning a club birthday celebration, including a three-course dinner at **St Hilda's College on Saturday, 16 May 2026**, shortly after our 22nd Varsity. You're warmly invited to attend and support. Please mark your calendars; we'd love to see as many alumni as possible back in Oxford to celebrate the club's journey.

Summer and Autumn 2025 Club Updates

Ray Pedersen finished their first Olympic distance triathlon! See the picture attached!

Another OUTriC member, Non Watts, swam across Lake Windermere, a [17km swim](#) and the longest swimming event in the UK. She came [2nd](#) in her age category. Here is a cheerful

comment from Non: "I don't recommend doing it on 0 training - swimming more than 3k beforehand would've been useful".

Sponsorship perks you have access to as an alumnus!

Stay tuned for my next email for this section. We will also be unveiling our 25th anniversary kit with you all, which you can order.

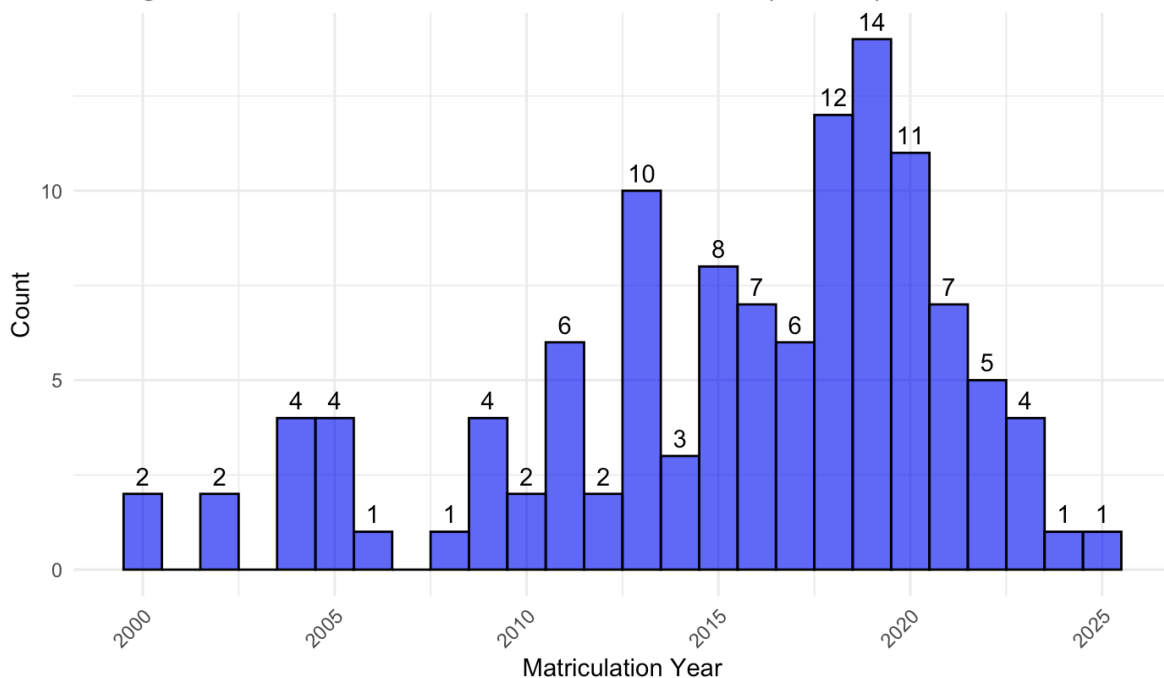

Expanding the Alumni List

We'd love to reach more former OUTriC members. If you know someone who isn't yet on this mailing list, please forward this email to them and encourage them to sign up on the form below. The bigger the community, the better the celebrations will be!

Based on the data from my latest export, here is the distribution of alumni matriculation years. Clearly, we are still missing quite a few people. If you see your year looking lean, do reach out to your friends!

Also, if you know roughly how many members the club had during your time here, please could you reply to this email and let me know? I am trying to build up a picture of our **maximum expected numbers vs actual alumni numbers**. Thank you!

Histogram of Alumni Matriculation Years 1990-2025 (n = 121)
